

Anastasia's bubble

Placed at the entrance of the MAF-art-athelier during the Expo -0. Introduction between the 13th and the 20th of august 2017.

13th august 2017 - 13:25h before the opening of the vernissage of the expo.

Throughout the all exhibition s opening the people didn't really pay attention to the canvas where they were stepping on entering the athelier.

It was only after I explain Anastasia about the 'Raw evidence' that she started to dance on a canvas that she didn't even see before.

Her bubble of the reality that she was just living on that moment had been burst.

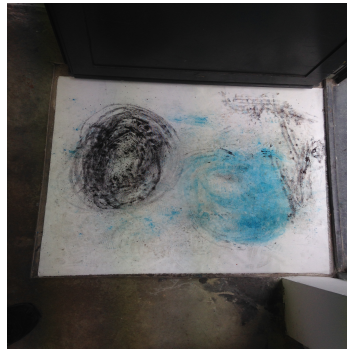

13th august 2017 - 17:40h after the first intervention and before the closing of the vernissage.

After around 1 hour I looked back at the painting and someone had made a bubble on the canvas...

13th august 2017-18:28h
Someone made a bubble.

18th august 2017-22:37h : the painting was left for few days and no one seems to have noticed the canvas that much.

20th of august 2017-18:17h

2nd intervention: by starting to put the black on the canvas everyone started to be more aware of it .

Some people came in in the expo and when they went out they kind of glanced at it but they didn't dare to ask a question.

At 18:17th the painting was in it's final state.

Cit. Anastasia: so i can jump and dance on the canvas? Me: of course! You can do a full dance variation on it!
